

FOR IMMEDIATE RELEASE

December 1, 2014

**2014 ENR Regional Best Project  
Award of Merit - Water/Environment**

In November, 2014 Engineering News-Record recognized the LPV 9.2 Fronting Protection and Breakwater Modification, Jefferson Lakefront, Pumping Stations No. 1 thru No. 4 Project located in Jefferson Parish, Louisiana as the 2014 ENR Regional Best Project Award of Merit – Water/Environment. C.J. Mahan Construction Company (Mahan) partnered with Odebrecht Construction to build this project, which is part of a \$14 billion mission to construct the Greater New Orleans Hurricane and Storm Damage Risk Reduction System. Mahan was responsible for all field operations and construction engineering for the project.

ENR's annual Best Projects award program is dedicated to honoring the country's best construction projects and the companies that designed and built them. Projects compete in 20 specialized categories and juries of industry leaders in design and construction from each of ENR's 10 regional editions judge the projects using five criteria, including safety, innovation and teamwork.

Mahan would like to thank Odebrecht Construction for the opportunity to partner on the project and would like to congratulate the Odebrecht / Mahan Project Team on receiving this distinguished award.

The logo for C.J. Mahan Construction Company, featuring a stylized red and white graphic of a building or structure to the left of the text "C.J. Mahan Construction Company" in a bold, black font.

2014 Best Project**

WATER / ENVIRONMENT

C.J. Mahan Construction Company would like to thank Odebrecht Construction for the opportunity to partner on the LPV Lakefront Pump Stations 1 thru 4 and Breakwater Modifications Project.

An aerial photograph showing the construction site for the LPV Lakefront Pump Stations. The image shows a large body of water with a long, narrow breakwater extending into it. In the background, there are several large, rectangular structures under construction, with cranes and other construction equipment visible. The sky is clear and blue.
