Carpenter Foreman

C.J. Mahan Construction Company, LLC is looking for experienced carpenter foremen.

Employee may be required to do the following: supervising one or more crews on heavy civil construction sites. Possess the ability to apply cost coding, quantities and payroll data daily. Expected to maintain appropriate crews size through hiring, scheduling, and layoffs. Must be able to plan work by ensuring necessary protective equipment, materials, and tools are available. Experience reading blueprints and diagrams to determine dimensions of structures or forms to be constructed.

Required Skills/Experience:

- Minimum 5 years demonstrated relevant experience as a carpenter in heavy civil construction. 2 years' experience as a foreman.
- Possess basic math skills and ability to read blue prints
- Experience with cast in place forming systems (EFCO, Symons, PERI, etc.)
- Qualified to operate aerial work platforms
- Qualified to perform rigging and signaling with cranes
- Capable of fieldwork involving heavy lifting and climbing, walking over rough terrain under various weather conditions. Must be physically fit, move and/or carry up to 50 lbs of field gear and able to perform fieldwork that sometimes involves walking long distances
- Able to train workers in construction methods, operation of equipment, safety procedures, or company policies.
- Ability to coordinate work with other craft

C.J. Mahan is an equal opportunity employer. All qualified individuals will receive consideration for employment without regard to race, color, age, religion, sex, sexual orientation, national origin, disability and/or protected veteran status in accordance with governing law.
